RESUME SUMMARY

From the moment I wrote my first line of code, I knew my life would never be the same. Software development become an engaging challenge to learn and improve my skills continually. What started as a hobby has become a full-fledged passion that only gets more exciting as the years go by.

Below you'll find projects I've completed that showcase some of my skills and background.

My Website(<https://orlandonabil.lol/>)

EXPERIENCE

Pokedex app (<https://pokedexorlando.netlify.app/>)

Single Page Application based on the classic Pokedex from pokemon, this web application was made with **React.js** using **Redux** to manage the global state, **Tailwinds.css** as a CSS framework.

In this SPA I consume the free pokemon API using **Axios**.

E-commerce (<https://e-commerceorlando.netlify.app/>)

A web application made using **React.js**, protected routes with **ReactRouter** and manages the token bearer in the **Local Storage**, styled with **Tailwinds.css** and global state with **Redux**

Recipes-backend (<https://github.com/nabilAparicio/Recipes-backend>)

This backend manages a list of all your ingredients and gives you a list of possible recipes to cook.

Backend made in **javascript** using **node.js** and **express.js** as a framework, as a database I use **PostgreSQL**, **Sequalize** as ORM, and Bcrypt to hash all the user's password
